EDUCATION

B.E. – Computer Engineering

Sinhgad Institute of Technology, Lonavla

May 2023

CGPA: 8.50/10

Diploma – Computer Engineering

CSMSS College of Polytechnic, Chh. Sambhajinagar

May 2020

82.40%

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Pixel6 Web Studio Pvt Ltd

Oct 2024 – Present

Pune, Maharashtra

- Designed and implemented REST APIs in Spring Boot & Symfony, improving API response time by 20%.
- Conducted code reviews, debugging, and unit testing, reducing bug reports by 15%.
- Collaborated with cross-functional teams to deliver 3 client projects on time, enhancing client satisfaction.

Key Projects

- PartStocks – Electronic Components Marketplace** (Java, Spring Boot, MySQL, React) [↗](#)
 - Led full-stack development: built a responsive React frontend with reusable components and integrated Spring Boot REST APIs to handle product, inventories, rfp, cart and order workflows.
 - Implemented authentication, product search, and pagination; optimized API and DB queries to support 5000+ products.
 - Worked with Git-based CI and coordinated frontend-backend deployment, improving user engagement and performance.
- Shall We Dance (Bharatanatyam App)** (Java, Spring Boot, MySQL) [↗](#)
 - Built secure Spring Boot REST APIs with JWT authentication and role-based access for mobile clients.
 - Developed admin dashboard for content management and analytics.
- Grizlu – Hotel & Restaurant Management System** (PHP, Symfony, Twig, MySQL) [↗](#)
 - Designed frontend and backend modules for reservations, menu management, and admin workflows.
 - Implemented CRUD operations, role access, and booking logic with Symfony.

Junior Software Developer

Creazione Software Pvt Ltd

Apr 2024 – Oct 2024

Pune, Maharashtra

- Developed the “Car Garage Service Management” system using Spring MVC, JSP, and MySQL.
- Built CRUD modules, dynamic forms, and pricing logic for vehicle servicing workflows.
- Collaborated on debugging, testing, and optimizing code for seamless performance.

Key Project

- Car Garage Service Management System** (Java, Spring MVC, JSP, MySQL) [↗](#)
 - Implemented customer, vehicle, service and billing modules following MVC patterns.
 - Added dynamic pricing calculation and single-submit form handling to avoid duplicate entries.

Software Engineer Intern

Future Ready Talent

Sep 2021 – Mar 2022

Remote

- Gained hands-on experience in Microsoft Azure, Git, and GitHub through cloud-based projects.
- Developed and deployed a static website on Azure App Service, demonstrating cloud hosting and CI/CD integration.
- Completed modules on cloud fundamentals, networking, and deployment pipelines.

SKILLS

Languages: Java, C, C++, SQL — OOP, DSA

Web Technologies: HTML, CSS, JavaScript

Frameworks: Spring MVC, Spring Boot, Spring Data JPA, Symfony, Hibernate, Angular, React

Databases: MySQL

Version Control: Git, GitHub, GitLab

Tools: Eclipse, VS Code, Postman

Cloud: Microsoft Azure, AWS

API: REST API development & testing

PERSONAL PROJECT

University Admission Prediction System: Java, JDBC, Servlet, MySQL, HTML, CSS, JavaScript

- Developed a web-based predictor using historical admission data and input features to estimate admission likelihood.
